

Mega Shield!

Now one product that does it all!

Why confuse your employees with multiple floor care products that are expensive and time consuming to use?

MEGA SHIELD takes floor finish maintenance to the next level. This new technology can more than double the life of most floor finish. From the first application, the floor finish is revitalized beyond its original luster. Reduce labor, stripping and chemical.

DIRECTIONS FOR USE

Mop On Restorer - Dilute MEGA SHIELD 2 oz. per gallon of water. For ideal results, let MEGA SHIELD dry prior to buffing or burnishing. For optimum results, use 1500 rpm floor machine or higher.

Spray Buff Application - Dilute 2 oz. per quart bottle of water. Spray MEGA SHIELD onto the floor in a stream pattern and start to buff or burnish. Reduce black heel marks, scratches and scuffs by using MEGA SHIELD on a daily basis.

Deep Cleaning / Scrubbing - Dilute MEGA SHIELD 4 - 8 oz. per gallon of water. Use a green or blue scrub pad with a low speed floor machine to remove deep scuffs and scratches. Buff to a high shine or apply MEGA SHIELD and use for maintenance the following day.
